*“I love how it allowed us to choose the things we wanted instead of making us pick and choose between things we really want and a bunch of things we do not need. Before looking at TI we were very close to booking with Viva Las Vegas because their packages were reasonable and included what we wanted in a nice outdoor setting. TI has made us consider a hotel venue again. Thank you.”*

*“I was excited to see that there was a QuickQuote option on the website. However, the page crashed numerous times and I was unable to go back and change my selections to see changes in price. When I closed the page and re-entered the QuickQuote website from the wedding page on the Windjammer website, I experienced better results. The page did not crash and the loading time was faster.”*
